Adobe™ Font Folio™ CD-ROM

The world's best collection of Type 1 typefaces on CD-ROM

Adobe Font Folio software gives you quick and convenient access to the high-quality collection of classic typefaces and original designs in the Adobe Type Library. The disc includes typefaces for Macintosh and PC.

The Best Typefaces at Your Fingertips

With Adobe Font Folio, you have instant access to the entire Adobe Type Library of typefaces for Macintosh and PC. The disc contains type packages 1–360, more than 1,900 of the world's highest-quality typefaces. And because all the typefaces in the library are based on the Adobe PostScript™ language, you can scale, rotate and transform fonts in any way your software application allows, while maintaining the quality and integrity of each type design.
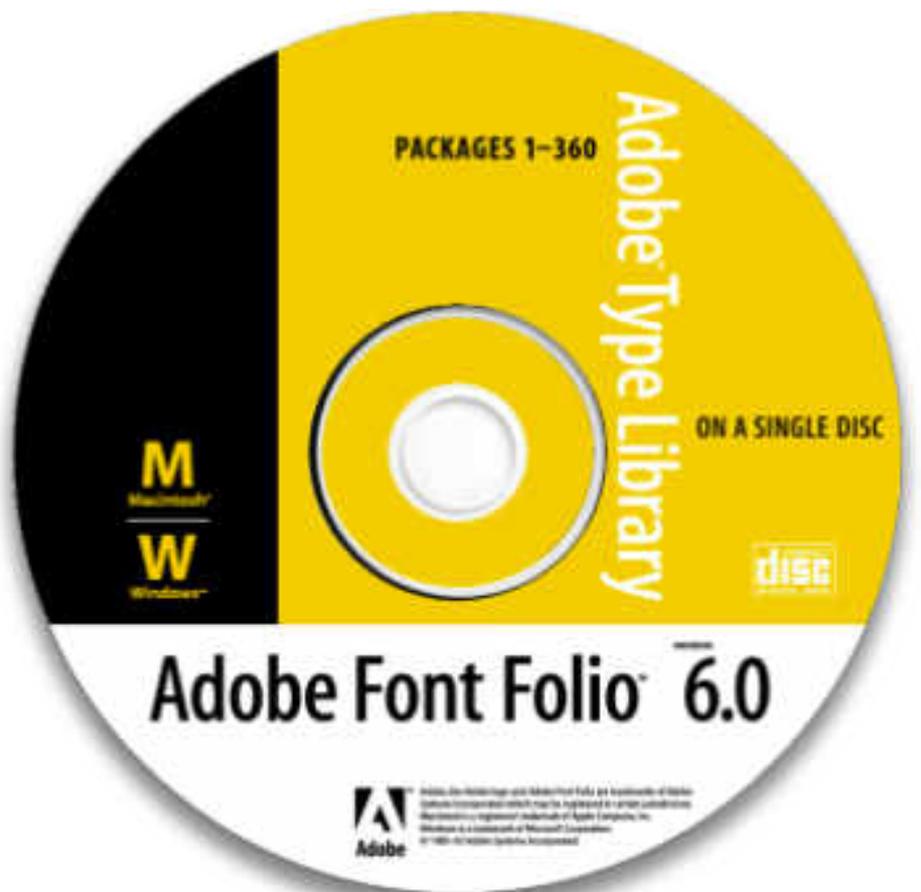

The Adobe Font Folio *also* contains Adobe Acrobat™ Reader, the tool that lets you view and print type technical notes and any other document saved in Adobe's new Portable Document Format (PDF).

And the disc includes the Adobe Wild Type™ package, a unique set of Adobe Originals™ typeface designs of animals, skateboarders, tools and more.

The Adobe Font Folio disc is *read* by a CD-ROM drive that connects to your Macintosh or PC, linking you immediately to your typeface collection at all times. And with the compact disc's optical technology, all of your font software is secure and nonerasable.

You can copy the typefaces to your computer or printer hard disk.

Please call **1-800-833-6687** for current pricing information.
