## Changes to the Adobe Expert Collection™ Packages

---

Some of your favorite Adobe typefaces are easier to use than ever.

We have revised the Adobe Expert Collection packages for the following Adobe Originals™ typefaces:

- Adobe Caslon™ Expert
- Adobe Garamond™ Expert
- Minion™ Expert
- Utopia™ Expert

The packages are rearranged to make Small Caps & Old Style Figures (SC & OSF) characters easier to use. The new SC & OSF sets contain some characters from the regular, base typeface packages. So now you can combine small capitals with regular capitals or combine lowercase letters with old style figures without leaving the Expert package.

An update kit is available to current owners at no charge. It contains:

- New disk master(s)
- Revised character access card(s)

All the typefaces included in the original Adobe Expert Collection packages are unchanged and will continue to work with your existing documents. However, because some of these characters have received minor improvements (for example, new accent positions), we recommend that you replace your old Adobe Expert Collection typefaces with the new versions.

To order an Adobe Expert Collection package or an upgrade, call our Sales department.

All terms and conditions of the "Typeface Software End User License Agreement" included in your original type package apply to this upgrade.
