

RESULTS CHART HELP

The results chart shows your test performance in the ten subject areas.

The length of each bar indicates how far you reached in each subject area when the test ended. A red coloured bar indicates a subject area where you chose a wrong answer. A green coloured bar indicates a subject area for which you answered all the questions asked correctly.

Moving the mouse pointer over the coloured bars displays the topics in which you were successful. Placing the mouse pointer just beyond the end of a red coloured bar shows the topic for which you gave a wrong answer.
