

LIBRARY BOOK HELP FILE

The display shows one of a hundred library **books** containing both text and pictures.

Direction arrows

If you click on the **direction arrows**, you can browse other *books* in the library without going back to the library **shelves** as follows:

LEFT: Takes you to the **book** to the left of the current **book** on the same **shelf**. If there is no **book** to the left then the next **book** is taken as being the one to the extreme right on the same **shelf**.

RIGHT: As for **LEFT**, but in the opposite direction.

UP: Takes you to the **shelf** above at the **book** immediately above the current **book**. If there is no **shelf** above the current **shelf** then the bottom **shelf** is used.

DOWN: As for **UP**, but in the opposite direction.

If you press the **shift key** when **UP** (or **DOWN**) is clicked, you are taken to the **book** on the **shelf** above (or below) which represents the position reached in the tutorial.

Book position

The small brown rectangular diagram with a green dot shows you the position of the current **book** on the **shelves**.

Help

Click on the **HELP** button to display this help file.

Exit

Click on the **EXIT** button to return to the library **shelves**.
