Alphanumeric Keys ³

1	Select identification
2	Select complete
3	Deselect identification
4	Deselect complete
5	Invert identification
6	Invert complete
7	Conditional selection identification
8	Conditional selection complete
9	Conditional deselection identification
0	Conditional deselection complete
A	Zoom section ⁰
B	Zoom overview ¹
C	Drawing list
D	Rotate objects (Submenu)
E	Edit text
F	Trim area (Submenu)
G	Tangent (Submenu)
H	Command queue

I	Geometry line (Submenu)
J	Edit properties
K	Circle (Submenu)
L	Line (Submenu)
M	Dimension (Submenu)
N	Restart command
O	Circular arc (Submenu)
P	Polygon (Submenu)
Q	Identify selected objects
R	Hatch objects (Submenu)
S	Zoom page ¹
T	Trim objects (Submenu)
U	Trim curve (Submenu)
V	Use previous identification
W	Move objects (Submenu)
X	Text (Submenu)
Y	Insert block / symbol
Z	Zoom named areas

Umsch + 2	Enlarge window 2
Umsch + 3	Enlarge window 3
Umsch + 4	Enlarge window 4
Umsch + A	Settings display
Umsch + B	Settings screen
Umsch + F	Settings colors
Umsch + G	Settings output

Umsch + M	Mouse button usage
Umsch + Q	Identify all objects
Umsch + S	Status window on/off
Umsch + T	Change key assignment
Umsch + U	Set origin
Umsch + W	Toolbox on/off
Umsch + Y	Symbol window on/off

Function Keys

	Key only	Shift + Key
Esc	Previous point	Restart dommand
F1	Help	Load drawing
F2	Switch arc direction	Save drawing
F3	Display grid on/off ¹	Save drawing as
F4	Position grid on/off ¹	Print drawing
F5	Switch area mode	Zoom section ⁰
F6	Snap on/off	Zoom overview ¹
F7	Duplicate on/off	Zoom page ¹
F8	Direct coordinate input ¹	Zoom original size ¹
F9	Assistant geometry on/off	Line patterns
F10	Identify all objects	Pens

F11	Use previous identification	Coordinate systems °
F12	Identify selected objects	Layers °

Shift Keys

	During point entry	During object indentification
Shift	Short-time (de-)activation of Snap	Identification via area entry
Control	Short-time (de-)activation of Duplicate	Identification of multiple objects / areas
Alternate	Activate menu	Activate menu

Cursor Movement Keys

↶	Move view area one step (5-100%) to the left ¹
↷	Move view area one step (5-100%) to the right ¹
⬆	Move view area one step (5-100%) upward ¹
⬇	Move view area one step (5-100%) downward ¹
Home	Move view area one page (95%) to the left ¹
End	Move view area one page (95%) to the right ¹
Page ⬆	Move view area one page (95%) upward ¹
Page ⬇	Move view area one page (95%) downward ¹

Keys in Numeric Keypad

Num ÷	Zoom undo ¹
Num ×	Move center of view area to current mouse position ^{1 2}
Num -	Zoom out (factor 0.5) ^{1 2}
Num +	Zoom in (factor 2.0) ^{1 2}

Other Keys

Tab	Command selection (if Shift is pressed: Digitizer function menu)		
Enter	Direct coordinate input ^{1 3}		
Space	Window refresh (together with mouse buttons: change Zoom) ¹		
	Key only	Shift + key	Ctrl + key
Backspace	Undo ³		Redo
Ins		Insert	Copy
Del	Delete objects	Cut	

Alt + key

Undo

Mouse Buttons

	Inside a drawing area	Within other screen areas
Left	Point entry / object identification	Press button
Middle	Snap on/off ³	
Right	Cancel command / Popup menu ³	View corresponding settings

° = Applies to the active window
¹ = Applies to the window the mouse is in, else to the active window
² = Works only if the mouse is inside a drawing area
³ = Key can be re-defined by the user

View / Zoom

Command	Possible key combinations ¹	
Move view area one step (5-100%) to the left	⌵	
Move view area one step (5-100%) to the right	⌶	
Move view area one step (5-100%) upward		
Move view area one step (5-100%) downward	⌷	
Move view area one page (95%) to the left	Home	
Move view area one page (95%) to the right	End	
Move view area one page (95%) upward	Page	
Move view area one page (95%) downward	Page	
Move center of view area to current mouse position	Num ×	
Zoom out (factor 0.5)	Num -	
Zoom in (factor 2.0)	Num +	A
Zoom undo	Num ÷	
Zoom section	Shift + F5	
Zoom overview	Shift + F6	
Zoom page	Shift + F7	S
Zoom original size	Shift + F8	
Zoom named areas		Z

Enlarge window 2	
Enlarge window 3	
Enlarge window 4	
Windows refresh	Space

Shift + 2

Shift + 3

Shift + 4

Selection / Object Identification

Command	Possible key combinations ¹	
Select via identification		1
Select complete		2
Deselektieren via identification		3
Deselektieren complete		4
Invert via identification		5
Invert complete		6
Conditional selection via identification		7
Conditional selection complete		8
Conditional deselection via identification		9
Conditional deselection complete		0
Identify all objects	F10	Shift + Q
Use previous identification	F11	V
Identify selected objects	F12	Q

Clipboard

Command	Possible key combinations ¹	
Cut	Shift + Del	
Copy	Ctrl + Ins	
Paste	Shift + Ins	

Settings

Command	Possible key combinations ¹	
Switch arc direction	F2	
Display grid on/off	F3	
Position grid on/off	F4	
Switch area mode	F5	
Snap on/off (permanently)	F6	
Short-time (de-)activation of Snap	Shift	
Duplicate on/off (permanently)	F7	
Short-time (de-)activation of Duplicate	Control	
Geometry on/off	F9	

Point Entry

Command	Possible key combinations ¹	
Enter point via mouse	Left (mouse)	

Enter point via coordinates	F8	Enter
Undo last point entry	Esc	
Cancel command	Right (mouse)	
Restart command	Shift + Esc	N
Short-time (de-)activation of Snap	Shift	
Short-time (de-)activation of Duplicate	Control	

Object Identification

Command	Possible key combinations ¹	
Identify object by clicking with mouse	Left (mouse)	Enter
Identify object via coordinates	F8	
Undo current identification	Esc	
Cancel command	Right (mouse)	N
Restart command	Shift + Esc	
Enter area instead of clicking onto single objects	Shift	
Identify multiple objects resp. areas	Control	

¹ = The key in the right column can be re-defined by the user
