TransSkel 3.14 — Release Notes

This document is an adjunct to the TransSkel Programmer's Manual. It lists changes and additions specific to release 3.14. If you have only programmed with pre-3.0 releases of TransSkel, be sure to read the earlier 3.XX release notes as well.

- Changed the `skelResumeProc` member of `SkelInitParams` structure from type `ResumeProcPtr` to type `SkelResumeProcPtr`. `ResumeProcPtr` is disappearing from Apple's header files, since you're only supposed to pass `nil` to `InitDialogs()` under System 7 now. This should help TransSkel compile under THINK C 7.
