

Welcome to GopherPup's Pretty Face!

GopherPup opens a door into the Internet's global library for you. Double-click on one of the underlined items to open a network doorway.

IUBio Archive, Indiana University

Internet source for biology software and data

BioInformatics at Weizmann Inst., Israel

Molecular biology, genomic and biology information

University of Minnesota Gopher

Mother of all Internet Gophers

Washington & Lee University

Card catalogs for Gopher services

GopherPup now sports a pretty face: it is able to display documents in the rich text format (RTF) that many of the widely used wordprocessors produce, and can link network resources into any of these documents.

Use the **Help** command under **File** menu to read details of how this program works.
