

Radius Walk:

1. Set both radii at maximum for the window, **Divisions** at 50.
2. **Draw Filled.**
3. Click pageDown in **Radius 2** twice (reduce by 10).
4. **Draw Filled.**
5. Click pageDown in **Radius 1** four times (reduce by 20).
6. **Draw Filled.**
7. Click pageDown in **Radius 2** four times (reduce by 20).
8. Repeat steps 5, 6 and 7.
9. Repeat step 8 until down to center.
- 9a. Click in the **Stat's Box** and redraw lines a few times.
- 9b. Click in the grow box.

This method was used to create the splash screen for **PolyPumper 1.4**, then screen captured, then edited in Color It! 2.3.
