

**TransSkel 3.16 — Release Notes**

This document is an adjunct to the TransSkel Programmer's Manual. It lists changes and additions specific to release 3.16. If you have only programmed with pre-3.0 releases of TransSkel, be sure to read the earlier 3.XX release notes as well.

- **There was a bug in the `NULLEvent` case of `TransSkel.clRouteEvent()` that could cause crashes if the application installed an idle-time function that changed the front window. Fixed.**
