

“Comment Inserter”

by Alexander M Kasprzyk and Brian Hill

©1997

This program is not free. Much time and effort was invested in creating such a fine and professional looking program.

Please support the authors' efforts and pay the extremely small fee of £10 (UK) or \$20 (US) to receive a version with the annoying start-up screen disabled plus free updates to any later versions.

Please send your money to either:

Alexander M Kasprzyk
26 Saffron Dr.,
Moorside,
Oldham,
OL4 2PU
England

or

Brian Hill
P.O. Box 22
Berkeley,
CA 94701
USA

If you are on the internet please provide your eMail address so that a copy can be sent to you directly, otherwise please include a S.A.E. and a floppy-disk so that the software can be snail-mailed back to you.
