

Nozzles Pack 1

Nozzles Pack 1

'Nozzles Pack 1' is an amazing new collection of nozzles for Painter™ and Painter 3D™, PC Windows 95, 98, and NT and Power Mac system 8 or later.

What does this amazing package offer you?

Adds a vast range of new brushes to your painting set.

More brushes, more originality, more incredible images. Our 100+ nozzles are featured in this pack and they form the basis for thousands of new effects and image creations.

What does it include?

Ranging from spirals, spheres, squares, stars, spots, dots, blobs, triangles, 3D shapes, lines, warped shapes, multi coloured nozzles, nozzles designed to be like tubes of paint, nozzles for backgrounds, nozzles for patterns..

The possibilities are limitless.

Nozzle Pack 1 will form the basis of your own nozzle sets, or can be used as a basis for the pattern brushes that play an amazing role throughout the brush set of latest version of Painter™, or these nozzles can be used as an endless supply of graduations, textures, grains, texturemaps, bump maps, reflection maps, blobs, tiles, and you can even use them to paint with!

Using the new advanced paint technology in version 6, nozzles add even more to your creativity. You can fill a picture or an object with nozzles, fill text with nozzles, use these nozzles in stroking selection paths.

The only limits, your imagination.

Instant art, or subtle effect... ideal for surreal, weird, photo-realistic... all kinds of art

Nozzles can also form the basis of add-ons to other products such as Corel PhotoPaint 9™.

Anything else?

Included in the package, a manual giving a wide range of hints and new ideas to explore. There is a demo set to tryout a small number of the nozzles (the set is fairly small to reduce the download size)
