

## House: Roofing and Siding

This step establishes much of the character of your home.

- Specify the type and slope of the roof. You can come back to this step later and adjust these settings as needed.

To choose materials for the roof, siding and trim:

- Click the **corresponding button** at the bottom of the screen.
- The Materials window appears.
- Choose a category, like Siding. Click it once when you find the material you want.
- Click OK to return to your design.
