

Finish: Design Review

The **Design Review** locates potential problems with your design, such as:

- a tree too close to the house,
- wall height isn't up to standards, or
- plants that won't thrive in your area.

To begin the review:

- First, go to the Options dialog box in the Edit menu and select from the checklist provided.
- Then click the Problems tab in this window and select the Review All button to see the results.

If you're working with a professional, <<GUIDE working with pros>> See ""Working With Pros"" <<END>>.
