

**Symbols:** Mark the Site

Solve problems in your design with **Symbols**. Label your site for issues like wind direction, noise problems, and eyesores that you want to hide, as well as views you want to emphasize.

Use the **Visible Layers** button to turn off the symbols in Top View.

**Note:** These symbols will not show up in 3D View.

<<GUIDE buffering\_noise>> "Buffering Noise" <<END>>  
<<GUIDE buffering\_wind>> "Buffering Wind" <<END>>
