Hardscape:
This is the underlying structure of your yard.

There are two primary ways to draw in **Top View**: Lines and Areas.

Lines

A. To create lines:
   - Select an object from the Object toolbar
   - Select a *Draw Type* from the options at lower right.
   - Click in Top View to draw.
   - Choose Single Line Tool to draw a single segment.

B. Or Choose the Multi-Line, Curved Line, or Free Form tool.
   To end the line:
   - double-click on the last point,
   - right click, or
   - press Enter.

Areas

C. To create areas.
   - Choose Rectangular and Circular Draw tools from Draw Type
   - Allows you to click and drag out a shape.

D. Point to Point Line and Point to Point Curve Tools
   - Click this tool to define a freehand shape.
   - Continue clicking until you define a closed shape.

   To end the shape:
   - Double click on the last point,
   - Right click, or
   - Press Esc, Enter, or Backspace key. The shape fills in.
