Chapter 1

FM

1.1   main

```
                VHI FrameMachine driver

  A driver for the VHI-interface for the electronic-design
                FrameMachine video card.

For a full documentation of the FrameMachine driver system,
please download also the FMdriver-archive from my homepage:

  http://www.tirnet.de/~srobl

You find there much more interesting FrameMachine programs and
other cool stuff...

 Credits                Thanks to...

 Author                 Contact information
```

1.2   Credits - Thank you

```
Thanks to:
----------

- electronic-design for the support

- Daniel Swertz and Rainer Steffen for providing
  the sources

- Gerd Frank for providing the hardware and good ideas
```

- Haage&Partner for StormC and WarpOS

- phase5 for the PowerPC-Boards and the CyberVision64

- Felix Schwarz for the VHI-Standard

1.3   Registration - GIFTWARE

```
Registration
------------

The new FrameMachine drivers are free.

But if you use this software and want me to make

further updates, I would recommend, that you send

me a donation of your choice (money or other

useful things like hardware, etc.).

You can reach me  here .
```

1.4   Disclaimer - Warranty

```
Disclaimer
----------

No warranty, either express or implied, is made with
respect to the fitness or merchantability of this
software.

The FrameMachine driver and the programs using it
were tested intensively and there was no problem
encountered using it.

The software should also run on your system.

But I'm not responsible for any damage which
could be - directly or indirectly - caused by using it.

The user of this software use it at his or her own risk!
```
