

The Flight of Apollo 13

If Apollo 11 was NASA's greatest triumph, Apollo 13 was its finest hour.

204,956 miles from Earth, when the call came; "Houston, we've had a problem," thousands of NASA employees and contractors worked nonstop against incredible odds to bring Apollo 13 back from the brink of disaster.

Some of the highlights of Apollo 13:

- An authentic recreation of the mission from liftoff to splash down using video, photographs, original artwork and 3-D animation all brought to life by actual EECOM loop and air-to-ground conversations. These recordings captured every word between the flight controllers, the "back room" -- anyone on the *loop* as they dealt with a dying spacecraft.
- A videotaped interview with James Lovell, commander of Apollo 13.
- 3-D animation of the interaction of the Earth and moon, showing the complications of getting from here to there -- and back.
- A complete archive of the EECOM loop tapes -- converted to digital format and enhanced for clarity and fidelity.
- Hundreds of photographs, drawings and original paintings.
- A copy of the report of the Apollo 13 Review Board (The Cortright Report) analyzing what went wrong. Formatted using Common Ground, you can print a replica of the report to any printer.
- A multimedia encyclopedia of the people, places and events associated with Apollo 13 including anecdotes, facts, figures and surprising revelations.
- Mission Control (MOCR) and the flight directors - the finest job in the space-flight business.

Credits - 3-D animation sequences courtesy of WGBH.

Arts & Letters Apollo 13 Order Form

The Apollo 13 two-CD set includes a multimedia encyclopedia about the Apollo 13 mission to the moon plus SpaceAGE, the history of space flight.

SpaceAGE is endorsed by The National Space Society, was featured on CNN Future Watch, voted "Best Space CD" by CD-ROM World magazine and named Editor's Choice by CD-ROM Today.

- Send me the Arts & Letters Apollo 13 two-CD set for only \$34.95 (US) plus \$5.00 for shipping and handling (U.S.A. only). For orders outside of the US, see the distributor for your country listed below.
