AniPlayer Version 1.0

What is AniPlayer?

AniPlayer is a program for the simultainious playing of both Autodesk Animator®,Autodesk Animator Pro® and Autodesk 3d Studio® FLI and FLC Files along with Standard Midi sound files or WAV Sample files. The program is written in Microsoft® Visual Basic and will run under Microsoft® Windows Version 3.1

Windows Drivers

The program has been tested and found to work with the following MCI Sound Drivers

Creative Labs® Sound Blaster
Creative Labs® Sound Blaster Pro (OPL2 and OPL3 versions)
Orchid® Sound Producer

The program has also been tested with the MSCDEX driver and will see all drives available to windows. i.e Hard Disks, Floppy Disks, CD Rom, Ram Drive etc.

The Program should work with any MCI Compatable sound device. Please advise of any Sound cards with which you have trouble.

Future versions

Future versions will include the following:

A fully featured script editor for the editing of FLI and FLC files with sound to produce full Multimedia Presentations.

A professional Studio countdown clock and SMPTE Standard timecoding

Support for MCI CD Audio.

Installation

To install AniPlayer, follow these steps:

Before you can use AniPlayer you have to run the setup program from Windows so it will work properly on your computer. You cannot just copy the files from the AniPlayer disk to your hard disk. The files on the distribution disk need to go into various subdirectories within Windows. The setup program places these files in the right subdirectories your working disk.

1.   Make Windows' "Program Manager" the active window.

2.   From Windows' "Program Manager", select "File", then select "Run". This will open the "Run" dialog box.

3.   Place the copy of AniPlayer in your floppy drive.Now, the dialog box needs for you to type in the command that will run the AniPlayer installation program.

        If your floppy disk goes in your Drive "A", type:

        A:SETUP

        If your floppy disk goes in your Drive "B", type:

        B:SETUP

4.   Fill in the required information in the dialog box.

        It will ask you for the "Source Drive and Directory" designation where your AniPlayer floppy disk is located. (This is the same floppy drive designation you typed in the previous
step   before the word "setup".)

        It will ask you for the hard disk "Destination Drive and Directory designation on which you want it to install AniPlayer. It will suggest a directory named "C:\AP".

        If you want the AniPlayer program files installed on a different drive or directory, just click the pointer to the right of the characters you want to change, backspace over the ones you want to erase, then type in the new designation.

5.   AniPlayer Setup will copy all the necessary files and place them into the correct subdirectories.

6.   AniPlayer Setup will notify you when the installation is completed. It will automatically build a "Program Group" called Parsec AV Applications and add AniPlayer V1.0 to it .

AniPlayer is installed and ready to use. Double click the pointer on, the AniPlayer icon and away you go!

Disclaimer

This program is being made available on an "as is" basis, and carries no warranties, express or implied. The author shall in no way be held liable for any damages resulting from the use of this program or the media on which it is distributed, including, without limitation, loss of business profits, interruption of business, loss of information, damage to equipment, or any

About the Shareware concept

Shareware distribution gives users a chance to try software before buying it.If you try a Shareware program and continue using it, you are expected to register. Individual programs differ on details -- some request registration while others require it, some specify a maximum trial period. With registration, you get anything from the simple right to continue using the
software to an updated program and a printed manual.

Copyright laws apply to both Shareware and retail software, and the copyright holder retains all rights, with a few specific exceptions as stated below. Shareware authors are accomplished programmers, just like retail authors, and the programs are of comparable quality. (In both cases, there are good programs and bad ones!) The main difference is in the method of distribution. The author specifically grants the right to copy and distribute the software, either to all and sundry or to a specific group. For example, some authors require written permission before a commercial disk vendor may copy their Shareware.

Shareware is a distribution method, not a type of software. You should find software that suits your needs and wallet, whether it's retail or Shareware. The Shareware system makes fitting your needs easier, because you can try before you buy. And because the overhead is lower, prices are lower also. Shareware has the ultimate money-back guarantee -- if you don't use the product, you don't pay for it.

Revision History:

1.0 - Initial release after extensive Beta testing

Registration

To register AniPlayer send £15 or $25, cheque (Drawn on a UK Bank) or money order to:

Parsec Audio Visual
6 Seville Street
Shaw, Oldham
Lancashire.
OL2 8SF
UNITED KINGDOM

Tel/Fax: 0706 291284
International Tel/Fax: +44 706 291284
CompuServe ID 100025,436

AniPlayer can also be registered through the Compuserve Online registration facility
Registration ID:740

When you register you will receive a copy of the latest version of AniPlayer with the annoying reminders to register removed.

An order form is included below for you conveinience.

Please supply the following

Qty   [ ]   copies of AniPlayer   @   £10 or $25   [   ]

Postage/Packing

Free in the UK
$2.50 from elsewhere   [   ]

Total   **[**   **]**

Send my software to:
