{bml display.bmp} Your task is to discover the secret code created by the computer.

(1) Use the mouse to point and click on a colored button (on the right).

(2) Point and click on a square of the gameboard to place your color. Start from the bottom row, and after each round you advance to the next row.

(3) You may change your selections until ready to see if you have been successful.

(4) Click the "Did I Get It Right" Button to See.....

(5) If you have not filled all the squares in the current row you will be ignored.

Otherwise the computer will either declare you the winner or provide clues to assist you in uncovering the code.
