Starship Status Report Panel

This panel displays a summary of the starships under the control of the Empire.

Each starship displayed, is identified with it's **name** and the **icon** and **name** of the **class** of the starship.

The name of the **taskforce** to which the starship is assigned is also displayed.

If the starship is cargo capable, icons representing the classes of the units in **cargo** are displayed.

Units which are cargo, are displayed with the name of the taskforce in which they are carried.

Units which are on planets, are displayed with the name of the planet on which they are based.

The **Unit Control Panel** for a starship can be accessed for any starship displayed on the list.   A starship is selected by double clicking the LMB on the entry for the desired starship.

The small button at the lower left side of the screen is the **Galaxy** [icon] or **Sector** [icon] toggle button.

When the [icon] indication is displayed, the report displays all the starships owned by the empire in the sector (**Operations Map**), and pressing the button will switch the report to display all starships owned by the empire in the galaxy.

When the [icon] indication is displayed, the report is displaying all the starships owned by the empire in the galaxy, and pressing the button will switch the report to display just those starships owned by the empire in the sector (**Operations Map**).

The next small button [icon] is the Help button and displays this information.

The button on the lower right [icon] is the Exit button and will exit the report.
