Claris Training Library CD-ROM

Claris UK announces the development of high quality training products for the Claris software range. 'The Claris Training Library CD-ROM", targeted at the business and education reseller channels, and approved third party training organisations, will be launched to coincide with the UK release of Claris Works 4.0.

For a one time annual fee subscribers will receive a CD-ROM containing a full set of training materials for Macintosh^{TM} and Windows^{TM} products. In addition, for a twelve month period from the date of purchase, each time Claris release new products, or upgrades to existing products, a new training CD-ROM containing associated materials will be shipped at no additional cost. Subscribers are licensed to replicate these materials to support the delivery of training courses for internal employees, and end-users, and are able to customise the materials to meet their needs.

The first edition of the Training CD-ROM will contain full sets of leader guides and delegate training notes for the following products: Claris Works 4.0 (Macintosh), Claris Works 3.0 (Macintosh & Windows), Claris Filemaker 2.1 (Macintosh & Windows), Claris Draw 2.0 (Macintosh). In addition, a free copy of Claris Works 4.0 will ship with every Claris Training CD-ROM subscription. *Subscription price £399 + VAT. Discounts are available for multiple site purchases.*

A series of short seminars are scheduled to demonstrate the Claris Training Library CD-ROM and to review the key new features of Claris Works 4.0. Interested parties should call 01787 277226.
