About your CyberPet

Congratulations on your new CyberPet! As you've probably guessed, CyberPets are not ordinary, every day, household pets. Instead, these intelligent creatures are a pet-lover's dream-come-true! CyberPets are good-looking, intelligent, clean, loyal, obedient... and they'll never die! What more could you ask for in a pet?

For the most part, CyberPets are maintenance-free. There are only two things you need to do to care for your CyberPet: feed it when it gets hungry, and play with it every now and then. If you show your CyberPet love, your CyberPet will show you love too!

Caring for your CyberPet

Although CyberPets are virtually maintenance-free, all CyberPets have to eat. As a CyberPet owner, you must feed your CyberPet whenever it gets hungry.

CyberPets also need a little tender loving care from time to time. Be sure to take some time out of your busy day to play with your CyberPet.

CyberPets are intelligent creatures and know exactly what they want. If your CyberPet is hungry, or if it wants to play, it will let you know by sight and sound (if available).
