**Tamatik v 1.0** A exciting poker game for everyone to learn and play. **Tamatik** offers a new way for the poker player, from beginner to High Roller, to work on their poker hands. Like Yahtzee, Tamatik encourages the player to extract the best hand from the cards dealt. Easy to use and fun to play, multi-hand or multi-player, **Tamatik** is the newest card game from Nissen Ventures. Windows, Soundcard, VGA display. **SWREG ID# 10112**

**Tamatik** game rules are very simple. Five cards are drawn, from the five cards select the cards you wish to keep by clicking on the card. Draw your replacement cards, you are permitted up to three draws and your discarded cards are replaced into the deck, each time.

Once you have created the best hand possible, you must place it on the score pad. Be careful, you are unable to recall or change you mind. If your hand does not meet the requirements on the score pad, no points will be credited.

The score pad is divided into two sections, the upper section of four row with a bonus and the lower section of nine rows. At the start of the game you can select how many columns you wish to play.

To score in the **upper section**, the cards in your hand must of the suit marked beside the row, Clubs, Spades, hearts or diamond. A total score of 120 points or more will award you a bonus of 100 points. This is not as easy as it may sound.
