   2000 points
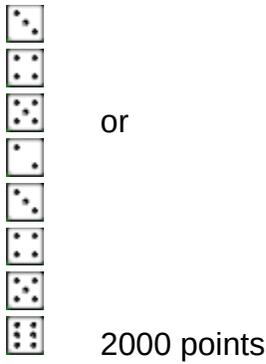

After every throw, you must take aside at least one dice or your points will be lost and your turn is over.

If you want to hold a dice, simply double-click on it. It will move into one of the places at the bottom. If you want to put a dice back into the game, click on it once.
If your current points (see following graphic) is displayed red, you need more points or must put aside another dice.
If you are satisfied with you current score, use the Take/Next- button to pass to the next player.

When you put aside all dice, you must throw again and get at least one counting dice.

If you were unable to score points 5 times in a row, youll lose 1000 points. The number of futile tries is displayed underneath your total score (see following graphic)

When two players score 10000 points in the same turn, the winner is the one who is closer to 10000.
