By registering you are having the following advantages:

1. You can play all 18 holes instead of the only six shareware version holes.

2. You will not be bothered by shareware reminders anymore.

3. You are helping to let this product be developed further and more new levels to be created. Even though we still know many features of this program which could be enhanced a lot we had to publish it like this because developing software needs lots of financial ressources and we were short of them.

If enough people register this program we will not hesitate to spend more money into developing it or other fascinating games.

We believe in the principle of shareware: Let the people try before they buy.

But also we are forced to make a living: if you don't register we cannot produce new games.
