

Fab Freddy's Tic Tac Toe

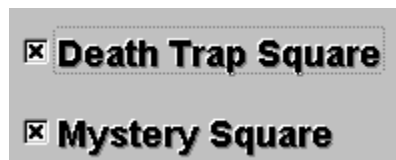

Who is Fab Freddy?

Fab Freddy comes from the Planet TICKTACK. He came to Earth to challenge all Earthlings to his favourite game, Tic Tac Toe! Reldni Productions has developed a Windows based game, where you can try and defeat the incredible Fabster!

The object of Tic Tac Toe, is to mark three connecting squares with your marker.

Options

There are two special options that enhance the normal Tic Tac Toe game and upgrade it to a Fabulous TICKTACKION style of playing!

Before beginning a Tic Tac Toe game, you may change the **Death Trap** and **Mystery Square** options. An **X** in the check box square indicates that the option is selected. In the above example, both a **Death Trap** and **Mystery Square** will be set at the start of the game. With the mouse pointer, click on the appropriate check box to change an option.

When the **Death Trap Square** option is selected, one of the nine Tic Tac Toe Squares will be secretly set as a trap! The player who picks the Death Trap Square will instantly lose the game!

When the **Mystery Square** option is selected, one of the nine Tic Tac Toe Squares will be marked with a **?** When a player picks the **?** square, the computer **randomly** changes the square to an **X** or **O**.

Selecting a Marker

There are two markers in Tic Tac Toe. They are X and O. The X marker makes the first move. If you wish to go first, click on the option **Freddy Is Marker O**. You cannot change the Marker setting

while playing the game.

To start the game press the **Start** button.

Fab Freddy's Tic Tac Toe (Version 3.0)
