ReadMe File for CalVBX Control.
REGISTRATION INFORMATION

This document includes information on how to register a copy of calvbx.vbx.
You can use the vbx for evaluation purposes and may redistribute the evaluation copy. However if you wish to continue using CalVBX you should register your copy of the calendar control. Once you've registered I will send you a fully operational copy of the calendar vbx.

Contents

Part	**Note**
1	Registration Information.
2	Redistributable Files.

Part 1: Registration Information.

You may register your copy of CalVBX control by:

Option 1 GO SWREG ON CompuServe.   Price: £5.00

On CompuServe 'GO SWREG' and register shareware Filename CalVBX.zip
I will then email you the latest unrestricted version.

I can be contacted on CompuServe ID 100025,1056 if you have
any problems, questions or anything else.

Should you require the source code (written in C) then Please send
a cheque for £20.00.

Part 2: Redistributable Files

On registration CalVBX is a royalty free control you can use bound to the following License agreement clause:

You have a royalty-free right to distribute only the "run-time modules" with the executable files created in any development tool if :
(a) you distribute the "run time modules"only in conjunction with the executable files that make use of them as a part of your software product;
(b) The SOFTWARE end users do not use the "run time modules" for development purposes.
The "run time modules" are those files included in the SOFTWARE package that are required during execution of your software program.
