

## **cwComponents**

**Copyright (c) Clive Walden 1996  
Distributed by Out & About Productions**

NOTE: This is a Delphi 1.0 version. However, registration entitles you to the 2.0 version which is delayed 3 weeks due to the author's much needed vacation.

### **To Install**

1. Install TBAR1.DCU on to the component palette.

If you move the TBAR1.DCU into a different directory, make sure you also move the TBAR.RES and TBAR1.DCR files.

You can get information about the components from 3 places.

1. Open CCPDEMO.DPR and run the Demo. Technical information is included on page 1 of the tabbed notebook.
2. The TEC\_INFO.TXT file included. This "may" have later information than the Demo memo.
3. The included help file. At this time it is stand alone; but future plans include integration with Delphi help.

### **Disclaimer and Legal Stuff - PLEASE READ**

We really hate disclaimers but we feel it is absolutely necessary.

Use of this product is at your own risk. Neither Clive Walden nor Out & About Productions nor Borland International is responsible for any damage to your data or your application as a result of using the components included with this package (cwComponents). In particular Clive Walden and Out & About Productions shall not be held responsible for any loss of profit or any other commercial damage, including, but not limited to special, incidental, consequential or other damages occasioned by use of these products.

You may distribute any application that includes any of the **cwComponents** in TBAR1.DCU with no additional royalties beyond your initial license registration fee.

If you use these components to develop an application where you also deliver the application's source then this is considered an additional license and the receiving party must license a copy of **cwComponents** from **Out & About Production**.

**Out & About** products are licensed with exactly the same rules as documented in Borland's no-nonsense License Statement.

The **cwComponents** components are copyright 1996 by Clive Walden and are protected by international law. We reserve all rights.
