

Holme Tree

Lovingly Crafted Furniture

Welcome to Holme Tree

Holme Tree is an established manufacturer of the finest handcrafted furniture. Our products are created in the heart of the National Forest and are both pleasing to the eye and beautifully smooth to the touch.

Our bespoke service begins with a consultation with one of our experienced designers who will create a unique, detailed plan to meet your individual requirements. Whether you are looking for traditional or contemporary furniture, our range of over fifty door styles will guarantee your kitchen can be as distinctive as you are.

Having viewed your fabulous new kitchen on our colour, 3D computer programme, our highly skilled craftsmen set to work to produce your furniture. Of course because our service is truly bespoke, we can manufacture our furniture to any size and specification.

Our doors are made from the finest timbers - hand picked for their quality, available in various thickness. Varieties such as maple, character oak, pine, cherry, sycamore, tulipwood and European oak are popular choices; however, other woods are available upon request. All exposed gables are also made from real wood veneer to match the timber of your kitchen.

All of our carcasses have solid backs and are manufactured from a choice of real wood veneers, co-ordinating MFC (melamine faced chipboard) or solid pine. All are made from 18mm material that is glued and doweled to give maximum strength and rigid construction. The wall units are hung on concealed hanging brackets.

The drawers available consist of either traditional solid wood dovetailed boxes or blum tandem boxes with steel sides and MFC bases. Both can be fitted with self-closing devices to prevent the drawers from slamming shut.

The internal features of your kitchen are equally important when creating bespoke furniture. There are many storage options available that can be tailored to your requirements including spice racks, roll out bins, concealed microwaves and many more (refer to page 23 for a selection).

Holme Tree offers every conceivable appliance either built-in or freestanding from all the leading manufacturers. Worktops including laminate, wood, granite and Corian are available along with sinks, taps etc. Indeed the whole package.

We pride ourselves on the quality of our product whether fully installed by us or provided on a supply only basis. We maintain a renowned reputation for our individuality, quality and service which is reflected in the number of recommendations we receive through our network of highly satisfied customers.

Let us assist you in designing a room for your home with function, comfort and beauty in mind - quite simply a rewarding experience - a Holme Tree experience.
