

1. Using colored pens, pencils or crayons color the path of the Lake Bonneville Flood.
2. Circle Red Rock Pass.
3. Label "Lake Channel", an area that was scoured by the flood north of Massacre Rocks as the flood waters spread out in an area around American Falls, but then flowed back into the Snake River Canyon. Today this area called "Lake Channel" is dry.
4. Use the graph to make a timeline of the rise and fall of Lake Bonneville. Add the significant events of the flood to your timeline.
5. Discuss how you think the Flood would have changed the landscape?
