

Starting Out

1 Creating and Managing a Project

A project is a set of files that produces a given end product, such as an application, a tool, or a loadable bundle. You use Project Builder to create a project and add your source and resource files to that project. In addition, Project Builder creates and maintains some files for you.

I have a bit of FIAT in my soul,
And can myself create my little world.
Thomas Lovell Beddoes

But from these create he can
Forms more real than living man,

Nurslings of immortality!
Percy Bysshe Shelley

I must Create a System, or be enslav'd by another Man's;
I will not Reason and Compare: my business is to Create.
William Blake, Jerusalem
