Save Document As

paste.tiff ⇧

You can use this command to save a document under a new name. The document's current name is displayed in the title bar of the document window.

As soon as you click this command, a file selection panel will appear. Here you can select a directory and enter a new name for the document. A document's name can be as long as you like, and it can contain both spaces and hyphens. The suffix characterizing OneVision documents (^a1VDoc^o) will be added automatically.

The document will be saved when you click the <OK>-button.

You can cancel this command with the *<Cancel/>*-button.

For different options on how to save documents, e.g., backup or previews, see the chapter *<Document Preferences>* (*;/../Info/Preferences.rtf;Dokument;¬*).
