

Introduction to the Font Menu

675839_paste.tiff ↵

This menu contains the commands for selecting and formatting text using various fonts. Some of these specifications can be entered from your text-processing application.

paste.tiff ↵ *Figure: The commands of the Font menu*

Some commands are not available if the necessary fonts (e.g., italic or bold) are not installed. The commands *<Underline>*, *<Superscript>*, *<Subscript>*, *<Copy Font>*, and *<Paste Font>* are always available.
