

Release 3.3 Patch Update ReadMe Copyright ©1995 by NeXT Computer, Inc. All Rights Reserved.

REVISED INSTALLATION INSTRUCTIONS

SA4padPointRule2.eps ~

The *NEXTSTEP Release 3.3 Patch Update* consists of a floppy disk and a CD-ROM disk. The materials on the floppy disk were not ready in time to be placed on the CD-ROM, and update some of the information on that disk.

The installation instructions for the patch update have been revised since the CD-ROM was mastered. The new installation instructions are in the *3.3patchRelNotesAddendum.rtf*d document on the floppy disk..

Do not use the instructions in the original *3.3patchRelNotes.rtf*d document on the CD-ROM.

These patch updates should ONLY be installed on systems running NEXTSTEP 3.3 (and, optionally, NEXTSTEP Developer 3.3). Do NOT install these patches on systems running earlier releases on NEXTSTEP.
