Installing the Chinese PostScript Character Set

The chinese PostScript character set consists of two files:

KaiSu-Regular.font, which has to be copied to the folder /LocalLibrary/Fonts
KaiSu-Regular.dat,which has to be copied to the folder /LocalLibrary/FontData

<u>Please note</u>: Installing the character set will **only** be successful if you copy the files to the LocalLibrary. The

installation will fail, if you copy them to a different library.
