

Class `java.lang.Error`

```
java.lang.Object
|
+----java.lang.Throwable
|
+----java.lang.Error
```

```
public class Error
extends Throwable
```

`Error` is a subtype of `Throwable` for abnormal events that should not occur. Do not try to catch `Error`'s unless you really know what you're doing.

Version:

1.5, 08/16/95

Author:

Frank Yellin

Constructor Index

o [Error](#)()
