

Interface `java.awt.peer.TextAreaPeer`

public interface **TextAreaPeer**

extends [Object](#)

extends [TextComponentPeer](#)

Method Index

- o [**insertText**](#)(String, int)
- o [**minimumSize**](#)(int, int)
- o [**preferredSize**](#)(int, int)
- o [**replaceText**](#)(String, int, int)

Methods

o **insertText**

```
public abstract void insertText(String txt,  
                                int pos)
```

o **replaceText**

```
public abstract void replaceText(String txt,  
                                 int start,  
                                 int end)
```

o **preferredSize**

```
public abstract Dimension preferredSize(int rows,  
                                         int cols)
```

o **minimumSize**

```
public abstract Dimension minimumSize(int rows,  
                                       int cols)
```
