Class java.lang.LinkageError

```
java.lang.Object
   |
   +----java.lang.Throwable
            |
            +----java.lang.Error
                     |
                     +----java.lang.LinkageError
```
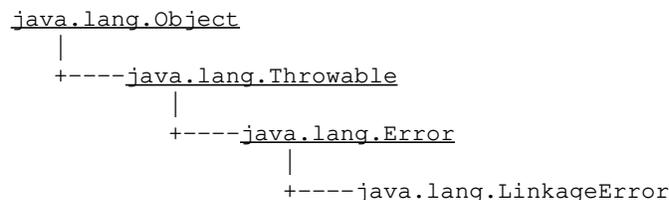

public class **LinkageError**
extends Error

LinkageError and its subclasses indicate that a class has some dependency on another class; however the latter class has incompatibly changed after the compilation of the former class.

Version:
 1.3, 08/13/95
Author:
 Frank Yellin

Constructor Index

o **LinkageError**()
 Constructs a LinkageError with no detail message.
