PRODUCT: CCUnits
MANUFACTURER: Castillo Bueno Systems
LICENSES: unlimited (shareware)

END-USER LICENSE AGREEMENT ("EULA"):

This EULA is a legal agreement between you (either an individual or a single entity) and the software manufacturer (either an individual or a single entity) identified above, for the shareware type software specified, which includes any and all computer software and associated media, printed materials and electronic documentation ("SOFTWARE"). If you acquired the SOFTWARE in the United States, this EULA is governed by the laws of the state in which the SOFTWARE was manufactured. If you acquired the SOFTWARE in Canada, this EULA is governed by the laws of the Province of Ontario, Canada. If this product was acquired outside the United States and Canada, then the local laws apply. By accessing, copying, executing, installing, launching, opening, using or viewing the SOFTWARE, you agree to be bound by all the terms of this EULA. If you do not agree with all the terms of this EULA, you must destroy all the components of the SOFTWARE. You may terminate this EULA at any time by destroying the SOTWARE in its entirety.

EULA Contents:

A. Grant of License
B. Limitations
C. Copyright
D. Warranties
E. Damage Liability
F. Agreement Finalization

A. Grant of License

1. Systems Software Use

As the SOFTWARE is shareware type software, you may install and use an unlimited number of copies of the SOFTWARE on an unlimited number of computers. However, the SOFTWARE may **only** be used in accordance with the accompanying IntelliSecure R2 trialware lock, which constitutes a component part and may **not** be modified. There are absolutely no exceptions.

2. Storage and Network Use

You may store an unlimited number of copies of the SOFTWARE on a storage device, such as a network server, used to install or run the SOFTWARE on other computers over a local-area or wide-area network. Since the SOFTWARE is shareware type software, you do **not** have to acquire and dedicate a license for each copy of the SOFTWARE installed.

B. Limitations

1. Reverse Engineering, Decompilation, and Disassembly

You may **not** reverse engineer, decompile or disassemble the SOFTWARE or any of its components. There are absolutely no exceptions.

2. Separation of Components

The SOFTWARE is licensed as a single entity. The component parts of the SOFTWARE may **not** be separated during distribution. There are absolutely no exceptions.

3. Rental

You may **not** rent or lease the SOFTWARE or any of its components. There are absolutely no exceptions.

4. Resale

You may **not** sell the SOFTWARE or any of its components. There are absolutely no exceptions.

5. Software Transfer

You may transfer the SOFTWARE to another individual or organization. However, that individual or organization must comply with all the terms of this EULA before using the SOFTWARE. Since the SOFTWARE is shareware type software, you are **not** required to destroy the source copy of the SOFTWARE before transferring a duplication of the SOFTWARE.

6. Export Law Assurance

You agree and certify that the SOFTWARE will **not** be exported outside of the United States except as authorized and permitted by the laws and regulations of the United States. Also, if the SOFTWARE has been rightfully obtained by you outside of the United States, you agree that you will **not** re-export the SOFTWARE except as permitted by the laws and regulations of the United States and the laws and regulations of the jurisdiction in which you obtained the SOFTWARE.

C. Copyright

All titles and copyrights in and to the SOFTWARE and its component parts, excluding the accompanying IntelliSecure R2 trialware lock module, and all copies of the SOFTWARE are owned by the manufacturer of the SOFTWARE identified at the top of this EULA. The SOFTWARE is protected by copyright laws and international treaty provisions, as well as other intellectual property laws and treaty provisions. The SOFTWARE is licensed, **not** sold. The IntelliSecure R2 trialware lock module is owned exclusively by DataET Research but has been licensed to the manufacturer of the SOFTWARE for integration and distribution with the SOFTWARE.

D. Warranties

THE MANUFACTURER GIVES ABSOLUTELY NO WARRANTIES. **To the maximum extent permitted by applicable law, the manufacturer of the SOFTWARE disclaims all warranties, either express or implied, including, but not limited to, implied warranties of merchantability and fitness for a particular purpose, with regard to the SOFTWARE.**

E. Damage Liability

THE MANUFACTURER ACCEPTS ABSOLUTELY NO LIABILITY FOR CONSEQUENTIAL DAMAGES. **To the maximum extent permitted by applicable law, in no event shall the manufacturer of the SOFTWARE be liable for any catastrophic, extraordinary, inadvertent, incidental, medical, psychological, special, direct or indirect damages (including, but not at all limited to, damages for loss of business profits, business interruption, loss of business information, damage to hardware, damage to software, corruption or destruction of data stored in permanent or temporary memory, or any other pecuniary or non-pecuniary loss) arising out of the use of (or the inability to use) the SOFTWARE, even if the manufacturer of the SOFTWARE has been advised of the possibility of such damages. Because some states and jurisdictions do not allow the exclusion or limitation of liability for consequential or incidental damages, the above limitations may not apply to you. However, in no case shall the manufacturer's liability exceed the original purchase price of the SOFTWARE, and the limitations set forth above apply to you regardless of whether you fully accept the SOFTWARE.**

F. Agreement Finalization

Under penalty of perjury, I agree and certify that I have read and accepted this EULA in its entirety. I fully understand that my signature is not required for this EULA to be binding, and I also fully understand that by accessing, copying, executing, installing, launching, opening, using or viewing the SOFTWARE, I agree to be bound by all the terms of this EULA.
