Control; ↵Tools → Control

This is the main panel of UUCon. From the Control Panel you can select a *Host* and then either list the *Queue*; ↵*Queue* of outstanding jobs for that host or you can perform a uucp *Poll*; ↵*Poll* of that host.

Jobs listed in a Queue can be selected with the mouse and then deleted with *Delete*; ↵*Delete Job*.

Results and dialog are appended to the text below. A progress wheel in the upper right panel corner spins when UUCon is busy.

Tools → LOGFILE; ↵LOGFILE

This shows an updating account of the UUCP LOGFILE which tracks UUCP transactions.

Tools → SYSLOG; ¬SYSLOG

This shows an updating account of the UUCP SYSLOG which tracks UUCP transfer sizes and times.
