## **How to make a dump of the communication between Alexandra and the nntp server to locate a problem/bug:**

- In a terminal window type: "dwrite Alexandra EchoSocket YES"
- In the terminal window type: "script" (see "man script")
- Start Alexandra in the terminal window in the background (with "&" at the end).
- Do some things in Alexandra which cause problems
- Exit Alexandra
- Type "exit" in the terminal window.
