

Keyboard

358755_PixelRule.tiff ↵

Apart from the usual command key equivalents for the menu items, Calculette offers several other short cuts from the keyboard.

684996_PixelRule.tiff ↵

CheckMark.tiff ↵ Type in digits and a decimal point as expected.

873490_CheckMark.tiff ↵ Clear your input with the space bar. A second clear will also erase the accumulated value.

550711_CheckMark.tiff ↵ The +, -, *, /, % and = keys work, except for the minus sign on the numeric key pad (a least on a NeXTStation), unless you correct your keyboard with Keyboard.

687940_CheckMark.tiff ↵ The *cut*, *copy*, *paste* trio does what it's supposed to do depending on whether Calculette or a printer window has the focus (is the first responder in NeXT terms).

1PixelRule.tiff ↵
