

Known problems

(ClipNotes v1.0)

438886_paste.tiff ↵

TaskArrowSm.tiff ↵ So far this app should be very stable
481918_TaskArrowSm.tiff ↵ If you find something that crashes the
app please tell me. 617030_TaskArrowSm.tiff ↵ A complete list of
all the know flaws can be found inside the *Release Notes* of the
documentation.

Thank you.

291955_PixelRule.tiff ↵

220329_CheckMark.tiff ↵ You have to at least change on character
inside the note template. Changeing the fonts only won't cause the
app to recognize the changes...and then it won't save them.

391386_CheckMark.tiff ↵ There is no Find panel right now.

65193_CheckMark.tiff ↵ I am not sure if the notes window does
hide and unhide in a very intuitive fashion. If you don't like its
behaviour just let me know.

735576_CheckMark.tiff ↵ The switch for disableing the service does
not work. Remove the app or remove the service file inside the
wrapper.
