

Add command

Line.tiff ↵

TitleInside.tiff ↵ AddInside.tiff ↵

Asks for the name of the new default for the currently selected owner.

84101_PixelRule1.tiff ↵

- The command fails if an equally named default already exists for this owner.
- Adding an default is useful only for apps which don't have their own preferences panel (e.g. **loginwindow.app**).

PixelRule1.tiff ↵
