

# The Ask panel

Line.tiff ↗

On file loading this panel is shown for every met filter condition with its corresponding filter attribute set to **ask**.

AskBottom.tiff ↗

PixelRule1.tiff ↗

- skipSelectedOwners; ↗ You have to select all owners/defaults which should not be loaded.
- stop; ↗ The **Stop** button on the right allows you to break the whole loading process.
- The top left corner shows the number of not yet loaded owners.
- Setting all filters to **ask** may lead to a large number of successively displayed panels.

## Example

ShortLine.tiff ↗

A **.defaults** file with following owners should be loaded:

**Example1**    new owner

<b>Example2</b>	new owner
<b>Edit</b>	will overwrite existing defaults and add new ones
<b>Mail</b>	will overwrite existing defaults

This leads to the following sequence of panels:

- 1) a list of all existing defaults of owner **Edit**.
  - 2) a list of all unknown defaults for that owner.
  - 3) a list of all existing defaults of owner **Mail**.
  - 4) a list with the new owners **Example1** and **Example2**
