

"Owner Types" preference

Line.tiff ↵

The Test command looks in the owner search paths for equally named applications for all owners to determine the obsolete ones.

"Equally named" means an executable *name* or *name.type* for an owner *name*, where *type* is one of the file types listed here.

PixelRule1.tiff ↵

- Black entries are user defined and can be removed, gray ones are predefined and not removable.

- No multiple selection possible.
