

# The Search All panel

Line.tiff ↗

Shows a list of all owners with default names and/or values containing the search string. The string is displayed in the title bar, the number of found items directly below.

You can inspect defaults and values the same way as in the main browser, but you can't change anything.

PixelDotted1.tiff ↗

## **removeSelection; ↗Remove Selection**

Removes selected owners or defaults from the panels browser.  
Closes the dialog if there's no owner left afterwards.  
The defaults database is not changed!

## **saveOwners; ↗Save Owners**

Saves the listed owners with all their defaults, i.e. not only with those containing the search string.  
Closes the dialog afterwards.

## **saveDefaults; ↗Save Defaults**

Saves the listed owners with all defaults shown in the panels browser, i.e. only with those containing the search string.

## **ok;¬OK**

Closes the dialog without any further action.
