Import Directory panel

4padPointRule2.eps ¬
Use this panel to select a directory you want to import.

This panel appears when you click the Select from NetInfo button in the Import Directory from NFS Server panel.

560028_PointRule2.eps ¬

Select the domain where the file server is set up from the browser.
Or type a pathname for the domain.

paste.tiff ¬
Select the directory you want to import here.
