Compendium Deluxe #1 Disk Copiers Menu

1.1 Disk Copiers

Filename	Comands	Size	Description
dm41.lha	VX	67K	DiskMate 4.1 by Malcolm Harvey - this is a Disk copier with the following features; Multitasking, Multi drive Diskcopier/formatter/eraser, Installer, Checker and disk Cruncher (DMS).
kcopy21.lha	VX	11K	KWIKCOPY 2.1 By Phil!94 - Another PD Dos copier! The difference with Kwikcopy is that you're not bogged down with near-useless options and you don't have to mess about with loads of tedious mouse clicks on tiny boxes every time you just want to copy and check a disk.
mtcopy101.lha	VX	129K	MT-Copy 1.01 - This is a multi-tasking disk copier/formatter etc.
sanitycopy.lha	VX	28K	SanityCopy by Chaos of Sanity, another XCopy clone, but 7 seconds faster.
sd31.lha	VX	132K	SuperDuper 3.1 by Sebastiano Vigna - This is a multi-tasking high-speed disk copier and formatter. Typical timings are less than 100s for a disk-to-disk verified copy, or 38s for a four disks non-verified format.
