1.1 Animation Creation Archives

Filename	Comands	Size	Description
font4d.lha	VX	274K	Font4D, a pre-release of a MUI-PovRay Animator using Fonts.
mactor11.lha	VX	214K	MainActor 1.1 by Markus Moenig - This is a modular animation package. You can handle up to five projects; every project can have an animation or picture loader, as well as an animation or picture saver. This makes it possible to convert everything in any ways, the number of available modules can be easily upgraded.
